EVEREST FINISHING MOWER

Everest Finishing Mowers are the development of years of combined experience in the grass cutting industry. These Finishing Mowers feature top quality construction and only the best performance you have come to expect on your acreage. Everest mowers are North American made with uncompromising strength and durability. An extremely high blade tip speed and blade overlap prevent stripping and ensures quality finish second to none.

STANDARD FEATURES:

- The robust and rugged gearbox is the heart of the mower. The single belt adjustment reduces maintenance time. (5)
- Pneumatic tires with puncture resistant sealant (1)
- Oil soaked wheel bushings ensure reliability with less maintenance. (6)
- Alloy hardened high speed blades with tungsten hard surfacing. (opt on 5 & 6', standard on 7')
- Large blade mounting area for added strength
- Locking compound used to fasten blades to spindles
- Large diameter sealed blade spindles for zero maintenance. (4)
- Fully height adjustable wheel yoke assemblies (6) (see matrix for details)
- Fully floating hitch keeps the deck level to the ground for a crisp even cut. (2)
