LIVE BOTTOM POTATO FLOOR SYSTEM

A **BAU-MAN** self-unloading conveyor system designed for the bulk hauling of potatoes in an insulated van trailer. (1)

An 18" belt conveyor with a pressure hood on top makes an economical and safe unloading system. (2)

All-aluminum framing and plastic sheeting on floors reduces weight and features less effort to clean out. (3)

The system is powered by a 7.5 HP, 3 phase electric motor and is controlled by a variable frequency drive, (VFD). (4)

Available in standard lengths of 45', 48', or 53' we can also custom size to your requirements.

System can be dismantled and removed from van when not in use.
